

Crew Of The Leelanaw Are Safe At Kirkwall

Ship From Galveston Discharged Cargo
Of Cotton at Archangel—Sunk
Off Coast of Scotland On
Return Trip

(Special to The Eagle)

Atlanta, Ga., July 26.—An Associated Press dispatch from London says that the American steamer Leelanaw, which sailed from Archangel, July 8, for Belfast, Ireland, with a cargo of flax, was sunk today by a German submarine off the Northwest coast of Scotland.

All the members of the crew of the Leelanaw were saved. They were brought into Kirkwall in their own boats. The Leelanaw was owned by the Leelanaw Ship Company of New York. She was formerly the Ernwell, and was 280 feet long, and 1,924 gross tons.

The Leelanaw left Galveston, Texas, May 5, and New York May 17 with a cargo of cotton for Archangel. Early in June she was detained by the British at Kirkwall because her cargo was consigned by way of Gothenburg, Sweden, which country forbids the export of cotton. Having discharged her cargo at Archangel, the Leelanaw was returning when sunk.

DOTHAN LEO FLAG LEAGUE

The Dothan baseball team led the Flag league in practically every department of the game, according to President, Dick Jamison, this bearing out the statement made in The Eagle from time to time, that Dothan had the best team in the league.

According to Jamison Dothan led in hitting and slugging, and tied Valdosta in fielding. The team average in hitting was .260, with a fielding average of .948, Valdosta having the same fielding average. Jack Reidy was the best outfielder in the league, his average being .933, he making only one error during the season. Reidy was also the leading run getter of the league, crossing the home plate 69 times. Paschal led in extra base hits, getting 46 extra bases during the season on his drives. Reynolds of Waycross and Paschal of Dothan led in home runs, getting 7 each. Heck of Dothan led in sacrifice hits with 33. Pitcher George Hall of Dothan was the best pitcher in the league, winning 14 games and losing 5. Poole of Dothan fanned the most batters with 119. Barruss of Dothan was the best shortstop in the league. Parks of Dothan was the third best batsman in the league, with .307.

The averages of the various Dothan players make an excellent showing, and prove that although Dothan did not win the pennant, finishing the season a game behind the leading team, that this city had unquestionably the best ball club.

Thought Men Gaming Were Making Liquor

A report reached the Sheriff's office late Saturday night or early Sunday morning that an illicit distillery was in operation near Ashford, and from this account the officers probably thought home made rum was being turned out in great quantities.

Deputies Alex May, Ross Hornsby and Talmadge May hastened to the scene, where they made an investigation, which resulted in the arrest of seven men on charges of playing poker. No distillery was found.

SHOW SEASON STARTS HERE IN SEPTEMBER

Unless present plans are changed the theatrical season will open with the presentation of one of the leading attractions of the day at the City Hall Auditorium some time in September.

It is difficult to book good musical shows into an opera house as far south as this as early September, but Manager Fred Thomas says he is doing his best to secure several excellent attractions for that month. He will probably receive some definite dates soon, and will be enabled to announce positively on what dates certain shows will appear.

The Atlantic Coast Line railway has offered its services in securing attractions for the Auditorium, B. F. Fuller, Traveling Passenger Agent, having gone through the project with the local manager, Mr. Fuller said that G. B. Ecker, of New York, General Eastern Passenger Agent of The Atlantic Coast Line, would use his efforts towards helping land some of the major attractions.

The past season was a disastrous one for the larger road shows, many of whom became stranded in the South and in other sections of the country. The general financial depression played havoc with the show business. This year the outlook in the South is some better, but it is entirely too early to offer a prediction as to what this year will bring forth.

It is reasonably safe, however, to predict that, no matter how stringent conditions may be throughout the south, that the show business will be better in Dothan than in other Southern cities. Dothan's first year of big shows ought to be well patronized, for the old saying that a "new broom sweeps clean," is just as applicable now as ever. Whether Dothan in future years will hold up under \$1.00 to \$2.00 shows remains to be seen, yet many believe such will be the case. This city has always been recognized as a good show town.

Signs of It.

Already there are signs of it—the approaching theatrical season. These cool mornings are harbingers of the pleasant Autumn days to come—of the big road companies now being "whipped" into shape in the Eastern cities for the Southern tour.

The City Hall auditorium has a geographical significance that must not be overlooked. The building is easily within a stone's throw of three cafes. These places are just as necessary to an opera house as salt is to meat.

It is next to impossible to wait through four acts of thrills without becoming hungry. Then there is a subtle attractiveness about after-theatre dinners—especially if the show is a monster musical production with a beauty show.

A Word to the Business Men of Dothan

This week another step will be taken in the commercial life of Dothan. Those interested in the movement looking to the re-establishment of the Chamber of Commerce will make definite announcements to the public this week. Right at the present moment Dothan can secure a man of first class ability as secretary. This gentleman is an industrial and commercial railroad agent, and at present is chief rate clerk of a railroad. This seems to just fit Dothan's need. During the next few years we will be developing markets for various new crops, and a rate expert here will be indispensable.

As previously announced a plan has been worked out, which,

if taken up energetically this fall can result in making the sweet potato industry in Houston county a large money crop. Furthermore, Dothan can secure an industry here which will consume all the syrup we can make,—the parties now owning a warehouse on one of the railroads in Dothan,—proposing to erect one of the sweet potato drying houses.

It's up to Dothan. Every man in our town and community, no matter if he has only a wages job, should co-operate with the committee which will be announced, and help get things started. If this is done we can more than make up for loss in decreased cotton crop. Will Dothan respond to this emergency call? We believe it will.

A CORRECTION.

There was an error in Saxon-Hendry Dry Good Company's advertisement in Saturday's Eagle. The error occurred in the price of organdie waists and read \$2.98 when it should have been 98 cents. Following is the advertisement as it should have appeared:

Organdie Waists.

"The real bargain of them all,—could have sold 500 of them at \$1.50 if we could have gotten them earlier in the season. These are by far the prettiest we have had this season. The material, the style, the make up and the designs are away above the average for organdie waists. We have them priced at only 98 cents."

Rev. E. H. Jennings and family and Prof. J. V. Brown and family will leave early in the morning in automobiles for a month's stay at their former homes in north Georgia.

It is to be hoped that the prices will be kept as low as possible this season, as there are many faithful theatre goers who are not in position financially to pay some of the high prices which some of the attractions require. Manager Thomas says he will use his efforts to keep the prices as low as possible.

"Madame Sherry." Perhaps?

It is probable that "Madame Sherry," the well known opera, will be presented in Dothan this season, agents of this company having written Manager Thomas to ascertain if there is any "enthusiasm" for that bill in Dothan. Assurances were given that the patronage here would no doubt be excellent. This show would play to a packed house in Dothan.

The following attractions have been booked, the dates to be announced later:

"Mutt and Jeff in College," "Bringing Up Father," Neil O'Brien's Minstrels, "A Fool There Was," "Prince of Pilsen," "When Dreams Come True," "Twin Beds," "Peg O' My Heart," "Within the Law," "A Pair of Sixes."

66 UNITE WITH FIRST BAPTIST

After ten days of morning and afternoon worship, the protracted services at the First Baptist Church came to a close last night with sixty-six new members to the church, this having been one of the most fruitful services in the history of the congregation. Forty-three persons were baptized, while six more will be baptized at some future date. Of the sixty-six accessions, forty-nine were united upon profession of faith and baptism, and seventeen by letter, statement and restoration. The church was packed to capacity.

The services during the past ten days have been conducted by Rev. John A. Wray, of Miami, Fla., while the song services were under the leadership of J. W. Jelks, of Macon, Ga. Both these workers made a great impression upon the Dothan people, and should they return will no doubt be accorded a hearty welcome.

Rev. E. H. Jennings, the pastor, will leave tomorrow for Georgia and North Carolina to spend his vacation. He will join Mrs. Jennings, who left some time ago.

Following are the new accessions:

By Baptism.

Charles Newsum, Lowell J. Black, Walter M. Johnson, William L. Holmes, Joseph C. Bottoms, John H. Hardin, Boyd Hay, Mrs. Mary L. Williams, Ethel Barnes, Reba Pilecher, Annie Laurie Hughes, Irene Brown, Minnie Robinson, Lucie Porter, Edward Robbins, Iva Hall, Christine Reid, Nellie Mae Reid, Mrs. Willie Bailey, Mrs. M. A. FARMER'S WIFE TOO ILL TO WORK

A Weak, Nervous Sufferer Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Kanota, Minn. — "I am glad to say that Lydia E. Pinkham's Vegetable Compound has done more for me than anything else, and I had the best physician here. I was so weak and nervous that I could not do my work and suffered with pains low down in my right side for a year or more. I took Lydia E. Pinkham's Vegetable Compound, and now I feel like a different person. I believe there is nothing like Lydia E. Pinkham's Vegetable Compound for weak women and young girls, and I would be glad if I could influence anyone to try the medicine, for I know it will do all and much more than it is claimed to do." — Mrs. CLARA FRANKS, R. F. D. No. 1, Monticello Park, Kanota, Minn.

Women who suffer from these distressing ills peculiar to their sex should be convinced of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health by the many genuine and truthful testimonials we are constantly publishing in the newspapers.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

The Old Church Bells.

The Dothan Eagle touched a tender spot in our heart when it contained that little squib calling for the ringing of the old church bells again. It carried us back to the time when we were a boy and used to act as sexton for the Presbyterian church at a little village called Pleasant Ridge, in North Greene. It was one of the finest communities in the state, and the elders of the church used to take it month about in opening the church and seeing that the bell was rung at the proper time, summoning the worshippers for a couple of miles around to come to worship. They had an old negro man to sweep the building and bring water and wait on matters generally, but it was the duty of the officer in charge for that month to see to it that the doors were opened at the proper time and that the bell was sounded at exactly thirty minutes to nine, for Sunday School and again at ten o'clock for preaching.

And the task of ringing the bell fell to the boys of the officers, and it was a proud task that we little fellows used to perform to ring the bell in the steep le of the little Presbyterian church. The other boys would all come around to see the task performed, and then we would sit around to see who would first respond to the ringing of the bell. The sound of that old bell, soft, resonant, reached far and near, and as little children, when we would stray off into the deep hollows down on the river and could not tell the time of day when the sun was shut out by the dense foliage the sound of that old bell, just before sun down, was a warning that we must prepare for the evening worship, and away we would go over hill and dale and get ready for the welcome service.

The old church bell in the steep le also sounded slowly, mournfully, almost humanly, when the body of some one in the community was being lowered to the bosom of mother earth. What a solemn impression the old bell made on such an occasion! And the chimes that came so sweetly from the tower of the church so fortunate as to possess them! When the writer of this lived in

Anniston, there was nothing that produced a finer effect on him on a calm, restful Sunday morning than to hear the soft notes of the chimes of All Angels, and St. Michael's as they came floating, softly, across the valley and up the side of the mountain, to his little cottage, bearing the music of the good old song, "Nearer My God to Thee," and, as the notes of that soul-inspiring hymn would die away, there was no doubt of the fact that the listener was drawn closer, nearer, in touch with the Giver of All Good Things.

Do away with the old church bells! never. Let them ring on. Calling the good nearer to Christ and reminding the thoughtless that there is a better world, and that the church leads to that better existence beyond the grave. — Montgomery Times.

Where People are Richest.

Commercial Appeal. In a recent issue of the Independent an interesting table is published showing the per capita wealth of the United States. It is doubly significant for the reason that it shows that the bulk of Americans are the richest people in the world and because it shows that the bulk of American wealth is to be found in the western states and the poorest states of the Union are the states of the south.

For instance, Nevada heads the list, the per capita wealth being \$5,048, while Mississippi is the poorest state of all, her per capita wealth being but \$726.

Tennessee is third from the last with a per capita wealth of \$861, while Texas ranks thirty-second in line.

The general impression would be that New York and Pennsylvania, because of the vast manufacturing interests, would be the wealthy states of the Union. This is a mistake. New York ranks twelfth and Pennsylvania twenty-second, Iowa, North Dakota, California, Nebraska, Montana, Colorado, Illinois and Kansas follow in the order named. The per capita wealth of each is over \$2,500.

The statistics furnished by the Independent were compiled prior to the European war. If this was true at that time it is doubly true today, since the richest countries in Europe are destroying property even more rapidly than they are destroying the bread winners of the land. They are plunging into debt. They are mortgaging loans which will take generations to repay. Various estimates made before the beginning of the war show that the per capita wealth of England was about \$1,500, the Frenchmen \$1,700, Belgium was a close third, and Germany, with about \$1,100, ranked fourth. The average for America is \$1,965, showing that even before the war we were the wealthiest people in the world.

The statistics offered are not at all flattering to the south. It is not pleasing to realize that Mississippi, our sister state, is the poorest state, per capita, in the Union, that North Carolina ranks next to last and that Tennessee is third from the bottom. Florida, Louisiana, Arkansas, Virginia, Kentucky, Alabama, Georgia and South Carolina are all bunched at the bottom of the table of states.

Of course it is impossible to make an accurate valuation of real and personal property, but the figures obtained by the census bureau are sufficiently correct to give a fair idea of the distribution of wealth in the various states.

How to Be Safe from

Lightning.

Woman's Home Companion.

Lightning hits cows oftener than people, barns oftener than houses, country dwellings oftener than city dwellings, trees at the edge of wood oftener than those in the thick of it, oaks or beeches than maples, and human beings outdoors oftener than human beings indoors.

In case of lightning run for a house—not a barn. Once inside a house, stay there. By actual count, it is 11 times as safe as outdoors.

Outdoors, it is another tale, for there you may be crazy enough to seek shelter under trees. Don't misunderstand me when I tell you which trees are most dangerous—all are dangerous none safe—and my only object is to drop a hint to people who are about to pitch a tent in the woods and who, consequently, risk being caught out at night and unable to run for their lives. With the proportion of hits indicated, the list follows:

Oaks, 51; poplars, 24; elms, 14. Walnuts, 11; firs, 10; willows, 7; pines, 6; ashes, 6; pears, 4; cherries, 4; apple 2; birches, 1.

THE BEST

is the

CHEAPEST

How often you hear that said about shoes, or clothes, or food.

It's much more true when applied to drugs and drug-store merchandise—on most of which far more vital things depend than mere good looks or pleasure.

Did you ever think of that? When health—perhaps life itself—is in question, the best is not only the cheapest—it's the SAFEST.

You always get THE BEST from us—and it's always the cheapest too, because we always give the BEST POSSIBLE RESULTS.

And it costs you no more, usually less—than elsewhere.

Edited by Geo. W. Collins

Messrs. S. E. Pate, O. M. Holman and Milo Sheffield left this morning for several points in Florida. They have with them a drove of horses and mules and their purpose for going is to swap, sell or buy. For years Mr. Holman has done an extensive livestock business here in Ashford, but since it has ceased to rain for us he has decided to seek other quarters that have been more favored.

Messrs. F. P. Garrett and J. T. Bush went to Old Poplar Springs yesterday to the finale of the Primitive Baptist general meeting.

After running for the past week, the Holiness people here have decided to continue another week in their series of meetings.

Deputies Alex. and Talmage May and Ross Hornsby broke up what was supposed to be a poker game down in the woods south of Ashford last Saturday night, and as a result three of our boys are gone. That May crowd finds out things somehow, and they always do have one more automobile that is right ready for a trip.

Law enforcement in Houston county seems so strange that the people are not fully prepared to

realize just what it means to begin with, but with the progress that is now being made it will not be long before our people will be thoroughly acquainted with it.

The meeting out at the Holiness quarters was well attended last night.

We learn with pleasure that Miss Delia Glass, who has been quite sick for the past several days, is much improved.

Mr. and Mrs. A. T. Fellows went to Panama City yesterday.

Tolbert and Miss Rosalie Clowers spent last week in Panama City. Tolbert returned home yesterday, but Miss Rosalie remained over for another week.

Mrs. Bell Harmon of Panama City, together with her brother, Rudolph Culbreth, of Gordon, route 1, spent Saturday night with their sister, Mrs. G. W. Collins.

Mr. and Mrs. O. O. Tolleson, of Dothan were Ashford visitors Sunday.

Mr. Lawson Forrester of Dothan spent a while in Ashford Sunday afternoon.

Mr. Dave Nordon of Crosby, spent Saturday in our city.

Messrs. Bob Mathews and Walter Bruner are out on a fishing trip today.

Mr. W. H. Sinquefeld visited out in the country yesterday.

Messrs. Will Pennington and Abe Harrison were in Ashford Sunday.

Mr. S. C. Todd of Edison, Ga. is visiting his sister, Mrs. V. C. Bruner, here.

MEASURING SPELLING ABILITY.

Seven out of every 100 third-grade public school children can not spell "hak." This and other curious evidences of the special problems inherent in the teaching of spelling are brought out by Dr. Leonard P. Ayres, of the Russell Sage Foundation, in a study just published.

As a result of combining the four most extensive studies that have been made to identify the words commonly used in different sorts of English writing, Dr. Ayres has selected the 1,000 words that constitute 90 per cent of the language ordinarily used. This selection was made from various English authors, from four Sunday newspapers in Buffalo, N. Y., and from the business and family correspondence of over 2,000 adults. The objects of the study was to "develop a scale for measuring attainment in the spelling of common words on the part of school children."

Co-operating with the city superintendent in 84 cities of the United States, Dr. Ayres had the 1,000 commonest words tested by an aggregate 1,400,000 spellings, secured from 70,000 public school children. The result, according to Dr. Ayres, made it possible to accurately measure spelling ability, and to compute the amount of improvement in spelling the same words from grade to grade.

By a scale arrangement, extending on a line from 0 to 100, "spelling ability" is easily and scientifically determined. For example, nine words of most frequent use, viz., "the," "in," "so," "no," "now," "man," "ten," "bed," "top," revealed that second grade pupils, on an average, spelled correctly 94 per cent of these words. At the other extreme of the scale words "judgment," "recommend," and "college," were found to be spelled correctly by just 50 per cent of eighth grade pupils. Percentages above and below these would indicate variations from the normal in spelling.

Dr. Ayres finds that "intellectual abilities are distributed in much the same way among people as there are physical traits. Just as there are few dwarfs, many people of medium height, and very few giants; so there are very few exceedingly poor spellers, many medium ones, and very few excellent ones. Few words do most of our work when we write. Fifty words constitute, with their repetitions, one-half of the words written. The child who masters the 1,000 words on the scale given will make no spelling errors in nine-tenths of his writing."

WE WELCOME YOU!
"A Greeting to Newcomers From Other Lands."

(This greeting, in seven different languages and illustrated with the American flag in colors, is given to immigrants landing at our different ports of entry.)

We welcome you to our great Republic! We welcome you to its free public schools; its free libraries and reading rooms; to the free picture galleries and pleasant parks of our great cities; to the vast grain fields and rich farming lands of the Golden West; to your new home—east, west, north or south! While you will always love the beautiful flag of your own land, we hope you will also love our red, white and blue flag with its forty-eight shining stars for the forty-eight states of this big Republic, which stretches from the Atlantic to the Pacific ocean. This flag floats over free public schools, which are attended by thousands of boys and girls, who have come to us from other lands.

Perhaps you left your steamer feeling sad and lonely because you were a stranger in a strange land. If so, we hope it will comfort you to know and realize that every member of the Woman's Christian Temperance Union, a society organized in ten thousand cities, towns and villages of America, is your sincere friend. We hope some kind woman wearing the little white ribbon bow, the badge of our organization, was the first to greet you as you stepped upon our shores. We wish we might take from your heart all its homesick feeling. We hope you will soon find a pleasant home in our country. Among our members there are many women from other lands and we cordially invite you to join us, and to help us increase the prosperity of our country, and make it a safer and happier nation. We should love to have the boys and girls unite with our temperance society for the children, called the Loyal Temperance Legion.

If you reached the United States through the port of New York, you rejoiced to see, as you entered the harbor, the Goddess of Liberty—the majestic figure of a woman holding aloft a flaming torch to enlighten the world. Yes, this is the land of true personal liberty; for each individual has the liberty to make the most of himself or herself and to become a useful, educated, upright man or woman. Some of the most prominent positions in business and government are filled by the children of parents who were born in other lands. They are the governing power in many of our large cities, and in some of our states. Thousands of Norwegians, Swedes, Germans, Italians, and men and women of other nationalities, now Americans, are enthusiastically aiding in our temperance work. When you have become an American citizen, we hope you will vote against the saloon and against the manufacture and sale of all alcoholic liquors. In many states, women as well as men, are citizens and can vote.

The headquarters of the Woman's Christian Temperance Union are at Evanston, Illinois, but wherever you may make your home you will receive from those who wear the little white ribbon bow, a warm and true welcome.

A DRAWING CAMPAIGN.
A small girl went home from school at Ketchikan, Alaska, after a talk to the children by Mrs. Cornelia Templeton Hatcher, president of the territorial W. C. T. U., and excitedly announced to her mother that she was "going to sign the mustard roll." Mrs. Hatcher repeated the information to her audience that night and told them that the temperance forces intended to put considerable ginger into the campaign for prohibition and the children would supply a "right smart" of mustard. The mustard roll was a drawing campaign for the W. C. T. U.

THE LESSON.

She gazes at her little brood,
Their clamorous wants she must supply,
New tenderness is in her tones—
"Oh, blest and happy mother I!"

"But yesterday this luncheon
life,
Its homely burdens wearied me
Impatient I, and discontent,
My cares were all that I could see!

"From dawn to dark new tasks
arose—
How blessed each one seems to-day!
The plain farm duties! How I joy
Here, safe, protected, dull, to stay!

"The plenteous fields are stretching wide,
The quiet village lies below,
No rumor comes of pillage, want,
There's no alarm of threatening foe!

"Gay hollyhocks nod by the wall
The boughs with ripening fruit hang low,
From yonder out field sounds the voice.

Of one whose fealty well I know!

"God pity women overseas,
Who husbands, sons, must give to die!
God make me thankful! They deserved
Love, safety, peace as much as I!"

—New York Times.

Skipper Hanna—

Miss Annie Skipper of this city and Mr. J. H. Hanna of Panama City were married at the residence of the bride's parents, Mr. and Mrs. B. G. Skipper on North Street Sunday morning at 10:40 o'clock, Rev. W. H. Tew, pastor of the Highland Avenue Baptist church, officiating. The couple left on the afternoon Bay Line train for Panama City where they will reside. They have the best wishes of numerous friends.

Miss Mary Crawford has returned from Cotton Hill, where she visited a relative, A. B. Bush. She also visited other relatives and friends in Barbour county.

Misses Lillian and Maude Ethel Farmer of Thomasville, Ga., arrived in the city Sunday and will spend the week with Mr. and Mrs. J. W. Baughman.

Mrs. J. L. Ward is improving at a local infirmary.

Miss Mary Essie Hunter leaves for Atlanta tomorrow for an extended visit.

G. W. Collins, of Ashford was a visitor to Dothan today.

Decidedly the most attractive place near Dothan now is Blue Springs, which is owned by Mr. George Kelly of Midland City.

A jolly party spending Sunday there was composed of Miss Blanche Couch, Miss Thelma McNair, Miss Minnie Lee McNair, Miss Estelle Green, Mr. Pat Poyner, Mr. Paul Clendinen, Mr. H. A. Denton, Mr. Charles Blum, Mr. Tyn Cobb, Miss Ernestine Blum, Mr. and Mrs. Mitchell Williams, Mr. and Mrs. George Heller, Mrs. Charles Blum and Mr. and Mrs. Quinn Nix.

Mr. and Mrs. Ernest Hurray have moved into the attractive bungalow on Lena street, recently built by Mrs. De Porter.

Mrs. P. N. Spann and Master George Spann left Saturday for Tybee to spend some time.

Miss Sallie Towles, who has been one of the charming members of Mrs. Charles Blum's house party, left Saturday for her home in Ozark.

Mr. Horace Lisensly is spending this week at Panama City.

Mr. Spurgeon S. Howell of Midland City, was in Dothan today shopping.

J. W. Floyd, of Midland City is in the city today on business.

BOB JONES HERE.

Rev. Bob Jones, of Montgomery, the well known evangelist, was in Dothan Saturday night and Sunday, and while here stopped at the New Thrasher Hotel. He was accompanied by his wife and family. He left for Montgomery this morning.

MRS. MONTEITH TAKES OVER THE TELFORD

Mrs. E. W. Monteith, formerly proprietress of Sawannee River Lodge, White Springs, Fla., wishes to announce that she will be at the Telford Hotel from now on and will give her former patrons the best of service there. The Telford has been recently thoroughly renovated and put in first class condition.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound" you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears and after another application or two, your hair becomes beautifully dark, thick and glossy.

Good morning, sir! Yes, I am back on the job at Williams & Co.'s, and right now let me call your attention to our Clearance Sale prices on straw hats and shoes. There will be lots more straw hat and Oxford weather and our merchandise is the new and up-to-date kind that was bought this season. Don't forget straw hats and shoes from 25 per cent to 33 1-3 per cent off.

IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally If You Eat Meat Regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoon in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

Wanted—An energetic, ambitious, active man to establish permanent business. Health and accident insurance. Immediate cash returns and future. Address National Casualty Company Detroit, Mich.

CALOMEL DYNAMITES YOUR LIVER! 'MAKES YOU SICK' AND SALIVATES

"Dodson's Liver Tone" Starts Your Liver Better Than Calomel and You Don't Lose a Day's Work

Live up your sluggish liver! Feel fine and cheerful; make your work a pleasure; be vigorous and full of ambition. But take no nasty, dangerous calomel because it makes you sick and you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping. Listen to me! If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced, just take a spoonful of harmless Dodson's Liver

Tone tonight. Your druggist or dealer sells you a 50 cent bottle of Dodson's Liver Tone under my personal money-back guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working; headache and dizziness gone; stomach will be sweet and bowels regular.

Dodson's Liver Tone is entirely vegetable, therefore harmless and can not salivate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of Calomel is almost stopped entirely here.

Store Advertising Does Not Lose, But Gains Interest Because of "War Conditions"

A disturbance of the normal course of business life, such as has resulted from the great war, gives peculiar interest and importance to the advertising of commodities.

For it is through this advertising that the eventual buyer and user of these commodities must first learn how the war has affected their making and their sale.

The woman who likes certain kinds of dress fabrics watches the store "ads" with peculiar interest because she wants to know whether such fabrics have become higher-priced, or non-importable. The same interest attaches to almost all commodities. How they are affected—whether the prices have soared or declined—whether domestic manufacturers are meeting the need for things no longer obtainable from abroad—such information comes to the people through the store advertisements, and gives to them an unusual interest.

War conditions, therefore, while they mean vexations for the merchant, also mean OPPORTUNITY FOR HIM.

He need not LOSE—he may actually GAIN—trade because of them, by making his store more and more pronouncedly a public service store, bridging for the patron the difficulties of securing the things wanted at normal prices.

Newspaper advertising never before held for the live merchant such opportunity as now.
